

Full Portfolio: <http://royaltman.net> | 25 Prof. Shor St. Tel Aviv, Israel | +972-54-5383523 | roy.altman@gmail.com

Experienced, service-oriented and prolific post-production generalist, seeking to create, collaborate on and deliver high quality visual experiences.

Professional Profile

- **Experienced!** 10+ years in post-production, specializing in VFX, motion design and video editing, both as a freelancer and in-house artist, working on hundreds of projects such as commercials, TV & film, music videos and video art. Expertise in 2D and 3D compositing, color-grading, screen keying, shot cleanups, numerous plugins and advanced scripting and automation.
- **Great Social Skills!** Decades of experience in customer service, teaching classes and public speaking, with developed interpersonal communication abilities.
- **Process!** I have a concrete, efficient and collaborative process that is transparent and communicative, allowing for precise and high-quality work.
- **Creative!** Experienced as a creative director for commercial and non-commercial content, specializing in breaking-down complex projects, developing custom workflows and leading teams of artists through to execution.
- **Teacher!** 10+ years of experience teaching professional courses and workshops focusing on animation, VFX, design, cinematography, video-editing, web development and more.
- **High-Tech Background!** 10+ years in the high-tech industry specializing in UI/UX design and development, with rich experience in network communications, encryption, operating systems and hardware.

Work Experience

2007-Today | Self-Employed Post Production Expert

- A freelancer with a vast portfolio focusing on visual effects and compositing.

2017-2018 | Lead Visual Effects Artist and Motion Designer | Post Office Post Productions

- As lead artist I assisted with the creative process, workflow break-downs and leading teams of designers on high-end projects.

2015-2017 | Resident Visual Effects Artist and Motion Designer | Green Productions

- As the sole resident artist, the job required both managing projects creatively and personally working on the projects, from storyboard and editing through color grading, VFX and motion design to final client delivery.

2008-Today | Teacher of Film Studies and Post Production | Various Institutes

- Developing instructional content and running professional courses and workshops at John Bryce High-Tech College, Animaya College, Sapir College and more.

2011-2012 | Visual Effects Artist, Editor and Motion Designer | Studio Clutch

- Working on commercials and promotional videos for a variety of clients and industries.

2008-2009 | UI/UX Designer and Web Developer | Truvle

- Designing the company's web applications as well as developing the client-side interfaces.

2005-2006 | UI/UX Designer and Web Developer | Repliweb

- Designing the UI of company's online software as well as developing the client-side interfaces.
- Project manager and development team leader for one of the company's leading products.

2003-2005 | UI/UX Designer and Web Developer | Softlink

- Designing the UI of company's web applications and tools from the ground up.
- Developing the client-side interfaces using HTML, CSS and Javascript.

1999-2002 | Senior Support Technician | Barak 013

- Senior technical support for the company's corporate clients.
- Developing training programs and web tools of technical knowledgebase and trouble-shooting.

1997-1998 | PC and LAN Technician | McMercury CASIO

- Installation, maintenance and training of digital point-of-sale stations.

Army Service

1994-1997 | Operations Sergeant | Air Force
